OE Registrations

DATE: 20 November 2008

CHARGE FOR ATTENDEES: Nil

ATTENDEES: 2 from Southland engenerate

BREAKDOWN OF COSTS

Item	Cost	Collected
Fuel Costs	\$98	

A UK overseas experience seminar was organised by Otago engenerate in conjunction with the Young Accountants Group NZICA. The seminar was run by OE Registrations who help young professional New Zealanders find jobs over in the UK. Southland engenerate organised for a car to go to Dunedin for the seminar as we do not have enough members in Southland to justify a separate seminar in Invercargill.

The presentation was very well received by all those that attended. The presenters had very good knowledge on the topic and were realistic about the job market in the UK at present. The seminar presented information on the different working visas available, the requirements for these visas and the time that is required to obtain them. Both of the presenters had been to the UK for an OE so had good knowledge of what it is actually like to work and live in London and gave useful information about the living costs that one can expect to incur.

The attendees thought that the seminar was worthwhile and presented a lot of information that would have been difficult to and time consuming to get if you were to do the research yourself.
